## General Comment

Reference #EPA-HQ-OPP-2016-0385

My name is Dana Pompeo and I live in Pacifica, California and I am requesting that the EPA immediately take action to protect our children. I want our public regulatory agencies such as the EPA to do their job and stop allowing five things:

1. Stop allowing our food to be contaminated by GMOs and toxic chemicals such as glyphosate based herbicides, 2,4-D, Atrazine and Dicamba.
2. Stop allowing aerial spraying of neurotoxins which are killing millions of bees, poisoning organic gardens, water, and the air our families breathe.
3. Stop allowing the poisoning of vaccines by weed killer glyphosate and other toxins by GMO chemical farming. TEST, Recall and Stop the mandates.
4. Stop allowing the poisoning of our parks, playgrounds, streets and towns by toxic herbicides and pesticide sprays which are causing serious health issues such as asthma, cancer, miscarriages, and auto immune disease.
5. Stop allowing our water to be contaminated with cancer causing chromium 6, lead, glyphosate based herbicides, fluoride, and many toxic chemicals from industrial waste and GMO chemical farming fertilizer and pesticides.

We want you to STOP Poisoning Our Children and our country!

The air, water, land, people and animals are all sick. It is your job to protect all of these things.

Thank you,

Dana Pompeo
